Construction Continues on Meijer Store

Construction continues on the new Meijer store on Rollins Road. The 192,940 square foot store is a welcome addition to the Round Lake Beach retail community.

Shop with a Cop Helps Children Have a Merry Christmas

The Round Lake Beach Police Department would like to thank all of the community members that donated money and/or time to our Shop with a Cop program. Local police officers were paired up with children between the ages of 5 and 12 years that come from lower income families as recommended by local social service groups. The officers took the children shopping at the local Walmart where they spent \$100 on things they needed, and they were required to purchase at least one toy for themselves. This year we helped 50 Round Lake Beach children have a very Merry Christmas.

We accept donations for Shop with a Cop all year round and we appreciate your continued support.

Snow and Ice Control

In the winter months parking on Village streets can create a problem when there is snow. Here are some helpful rules:

- ❖ No parking on Village streets from 2:00 - 6:00 am.
- ❖ When there is a snowfall of more than two inches, residents are asked to park vehicles in the driveway or garage while plowing operations are in progress. This gives the Public Works Department the opportunity to plow the streets.
- ❖ Please DO NOT throw snow from your property into the streets since this can create a hazardous condition.
- ❖ When shoveling or plowing snow from your driveway, pile the snow to the left side of the driveway (when facing your house). This will help prevent snow from accumulating again on your driveway when the snow plows come through your neighborhood.

Basketball backboards placed on the right of way create a problem for the snowplow drivers. During the snow removal operations, please remove backboards as soon as possible and any items you may have in the right of way that would cause a problem for the snow plows.

Mailboxes: Please make sure your mailbox is attached securely to the post so snow mounds or snow from the plow does not dislodge them. The Village will only repair or replace mailboxes/posts that have visual damage from our plow trucks. According to USPS regulations the face of the mailbox must be between 6 to 9 inches back from the edge of the pavement or curb, height from the ground to the bottom of the mailbox must be between 41 to 46 inches.

The Snow & Ice Control Program was established to combat winter storms while maintaining public safety and preventing damage to life and property. Please visit the Village's website for addition information and FAQ's at <http://www.villageofroundlakebeach.com/174/Public-Works>
