Round Lake Beach
New Resident Information**

Welcome to Our Community
www.villageofroundlakebeach.com

May 2015

Dear Neighbor:

On behalf of the Village Board of Trustees, I am pleased to provide you with this "Resident Information Guide". It includes descriptions of the services offered by your village and the other governmental entities (school, district, park district, library, etc.) that offer their services in our village.

Mayor Richard H. Hill

We have several projects in the works and more to come.

The biggest by far is the underpass being constructed at Rollins and Route 83 in the fall of 2013. It will separate the train tracks from the road, increase the number and length of left turn lanes and move Hainesville Road to the other side of McDonalds. This will make getting to and from our downtown much easier. When the construction is complete we expect the Mallard Creek Shopping Center to be redeveloped. Please bear with us through the construction. You will really like it when it is done.

In the 2010 census, our population rose to over 28,000. New residents continue to move to our Village because it is a good place to live. I look forward to the input of our residents to achieve our future goals. Please feel free to call or email me with your suggestions and ideas or if you would like to be considered for appointment to one of the various committees that keep our village going forward. Together we can continue to make Round Lake Beach a desirable place in which to live, work and play. The Village Hall phone number is 546-2351, or e-mail me at MayorRLBeach@ameritech.net

Citizen's Guide to Village Board Meetings

Welcome to the Board of Trustees meeting of the Village of Round Lake Beach. The President and Board of Trustees are the governing body of the Village and your elected representatives welcome your comments and concerns. We invite you to participate in the meeting, and ask that you comply with some simple procedures we have established.

Operation of the Meeting

The Village President (more commonly referred to as the Mayor) chairs and runs the Village Board meeting. The Mayor generally introduces items from the agenda, and presents to the Village Board background information. If the agenda item involves a development application, the Mayor may request that the petitioner make a presentation to the Village Board. The application will be discussed by the Village Board and then open for public comment. The Village Clerk is responsible for calling the roll for those agenda items, which require a vote by the Village Board.

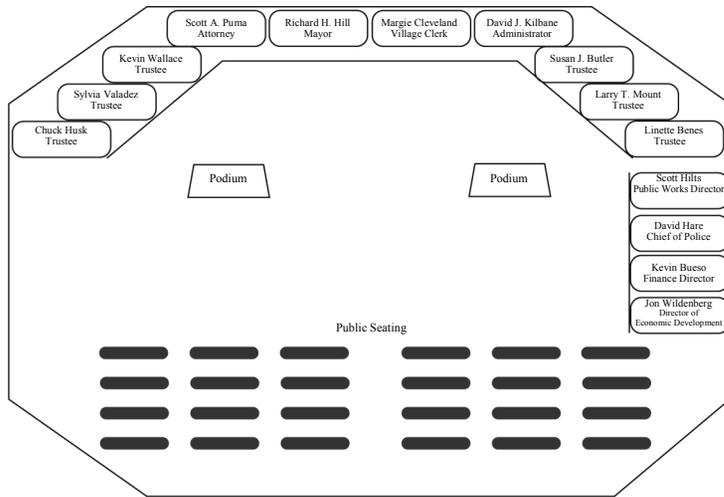

Addressing the Village Board

All audience participation must be recognized by the Mayor including questions and comments directed to other Board members or petitioners. Citizens wishing to address the Village Board on any topic may do so at the end of the meeting under the section "Public Participation." After being recognized by the Mayor, please walk to the podium and state your name and address for the record. When there is a controversial issue or large group present, the Mayor may limit the amount of time allocated to those who want to speak, and all who speak are asked to comply with the established time limit. Because the Village Board often has a full agenda and must complete the work of the Village, you are asked not to repeat comments or questions that have already been discussed.

Presentation of items not on the agenda will be limited to three minutes per issue Committee Meetings.

Each of the Village Trustees is assigned by the Mayor to serve on a standing committee. Each of these committees has a chairperson and the issues discussed by each Village Board committee are generally limited to those issues. These meetings are generally less formal than Village Board meetings, however, all audience participation must be directed through the chairperson of the committee. Generally an item is scheduled for discussion at the committee meeting, and a recommendation vote is taken. The item is then scheduled for Village Board consideration at the next regular Board meeting. Occasionally committee discussion and board action may be taken the same day when there is some urgency to the issue/action.
